

METIS WORKSHOP ON SITE-SPECIFIC PSHA

[Project News](#) | 7 December 2023

< ☰ >

The METIS workshop on site-specific PSHA took place on 14-15 November at Centro Congressi Giovanni, Bergamo, Italy. It was hosted by METIS partner GEM.

The workshop gathered more than sixty attendees from academia and industry from Europe and overseas.

It combined presentations from METIS partners and invited speakers on the topic of site specific probabilistic seismic hazard assessment. State of the art and new approaches to develop site specific hazard in weak to moderate seismicity regions such as encountered in most European nuclear countries were addressed.
